MILITARY DEPARTMENT, SKYCELL SATELLITE TERMINAL
PROGRESS REPORT**

[September 30,1999]

I. DEPARTMENT/AGENCY: Military Department/Office of Emergency Preparedness

II. PROJECT TITLE: Skycell Satellite Terminal

III. PROJECT LEADER:

COL Michael L. Brown, Assistant Director, Office of Emergency Preparedness

Mr. Matt Farlow, Chief, Operations Division, Louisiana Office of Emergency Preparedness (LOEP), 625 North 4th Street, P.O. Box 44217, Baton Rouge, LA 70804-4217. Phone: (225) 342-5470; Fax: (225) 342-5471; E-mail Address: mfarlow@hotmail.com Web-site: <http://199.188.3.91>.

IV. DESCRIPTION OF THE PROJECT:

The mission of the Operations/Communications Division is to provide, maintain, and support a 24 hour alert and notification system which will provide fail-safe communications between the LOEP, parish Emergency Operation Center (EOC), and other governmental agencies.

The need therefore, is for a fully integrated communication system for the transmission of voice, data, facsimile, and imaging operability to enhance the communication capability between the LOEP and all parishes Emergency Operation Center (EOC), state and agencies.

The Skycell Satellite Terminal system will be a stand alone, yet portable tertiary communications platform, which will provide coverage approaching 100% for operational units within Louisiana. The system will provide satellite terminal to satellite terminal voice, data, fax, broadcast, and video capabilities. The system is provided by American Mobile Satellite and is known as the "Skycell Satellite Terminal".

V. PROJECT STATUS:

A. Brief Summary.

The personnel responsible for this project overcame numerous delays brought on by an active hurricane season last year to get this project to completion in time for the 1999 hurricane season.

B. Accomplishments.

1. All purchase orders were released to the vendor.
2. The Skycell Satellite Phones were delivered to the LOEP.
3. Distribution of the Skycell Satellite Phones to each parish is due to begin July 15, '99.
4. Sufficient satellite service time has been procured to insure continuity of service through the hurricane season.

C. Problems Encountered/Action Taken or Planned.

Pitfalls have revolved around the issues of product model changes, bid solicitation, and purchase order release.

1. On February 3, 1999 the vendor advised of obsolescent product numbers. The necessary corrective actions were taken and the correct phones were ordered with contract award in Mar 99.
2. The Skycell Satellite Phones were received at the LOEP in June 1999.
3. Programming and setup issues delayed the deployment of the phones until July 1999.
